

HF220W-QB

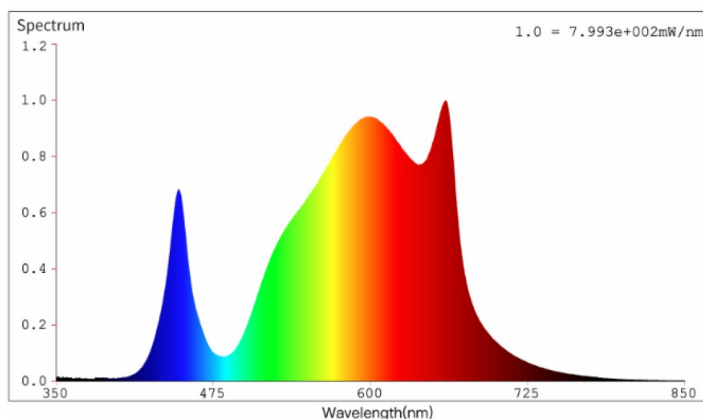

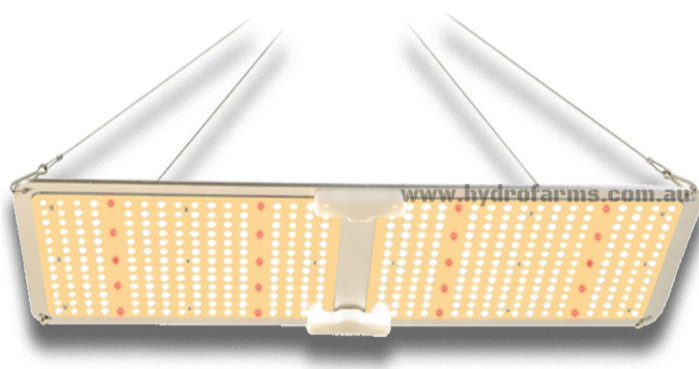

PRODUCT OVERVIEW:

The HF220W-QB is our baby Quantum Board design. You will never have to compromise power due to lack of space as these compact units are perfect for tight areas where a larger, and slightly less powerful Bar Panel design can't fit. Perfect for This grow light has been successfully operated in many cupboard spaces due to its rectangular shape and will fit easily in a very small tent measuring 0.6m x 0.6m and above, while still offering the full light spectrum and light dispersion you come to expect from our range.

Built to our own specification with our clients' needs in mind, This full spectrum Bar Panel LED features the highest grade waterproof Samsung LM301H and Osram Diodes to give your plants the most efficient full spectrum light similar to natural sunlight. Talk to a GrowMaster today about the proven results from this LED.

FEATURES:

- Horticultural Grade, Water proof Samsung LM301H Diodes (most competitors use inferior spec/less efficient LED)
- Fully Dimmable 10V: 22w to 220w
- Heavy Duty Meanwell Driver
- 2x Rope Ratchet hangers included (because we know what you need!)
- Daisy Chain cable link included for multi LED installations (up to 200 units)
- Perfect for use in tight spaces and cupboards
- **3 Year Australian Warranty**

Full Spectrum LED—Results from HF220W-QB
